

I would like to attend the GeoDATA 2018 {insert venue} one-day event on {insert date}. It's a valuable opportunity to ensure we're getting the most out of our investment in spatial data.

The day provides up to 6 hours of industry talks that share best practices, the latest solution innovations and opportunities for me to get our specific technical questions answered by leading suppliers of geospatial data, software and services. It also includes a trade exhibition that will enable me to meet face to face with leading vendors.

This is an especially important time for me to keep up with changes in geospatial technology because of rapid advancements in the field. Spatial data is becoming more accessible, and I need to know how we can leverage its capabilities to make the most of our resources. Here are some of the projects that could benefit:

- 1)
- 2)
- 3)

The event is free to attend and I would be happy to share relevant information with other staff members on my return.

Thank you for any consideration you give this, and I look forward to your reply.
